SKILLS React, JavaScript, Python, Flask, SQLAlchemy, Sequelize, Postgres, Redux, TDD, HTML5, CSS3, SQL, Git, Nodejs, Express, Pug

PROJECTS

Cubeagram *Instagram clone* (JavaScript, Python, SQLAlchemy, Flask, React, Redux, HTML5, CSS3) [Live Site](#) | [GitHub](#)

- Implemented controlled input previews using useState **React** hooks on posts so that a user can visualize what their post looks like to ensure requirements are met prior to submitting the post.
- Designed a Modal for editing comments using **React** to create a separate component to negate a redirect to another page for better user experience.
- Used local storage and optional chaining with useState **React** hooks and **JSX** to keep state when a user refreshes any page they're on.
- Designed a search feature with the current state from the **Redux** store using several query functions to allow a user to search for users by username.

Whelp *Yelp clone* (JavaScript, Python, SQLAlchemy, Flask, React, Redux, HTML5, CSS3) [Live Site](#) | [GitHub](#)

- Utilized **Google's API** to fetch and render data to create an interactive **UI/UX**.
- Created a responsive design using media queries in **CSS3** for multiple different viewport sizes to account for any device.
- Implemented a robust search feature with the current state from the **Redux** store using several query functions to allow a user to search for almost any piece of information in any given business.

CabinGo *Airbnb clone* (JavaScript, React, Redux, HTML5, CSS3, Express, PostgreSQL) [Live Site](#) | [GitHub](#)

- Implemented a review feature with a star rating and text using react-simple-star-rating package to provide simple intuitive reviews.
- Rendered Amenities using optional chaining and nested ternaries to appropriately display the users input.
- Built out numerous **React** Components including custom forms and content display pages with **JSX**.

EXPERIENCE

Technician | *4-way Pest Control - Idabel, OK* Jan 2020 – Apr 2021

- Assessed and identified 150 residential locations a month needing services and developed all treatment and control plans specific to customer needs and specifications.
- Maintained and updated customer and task records on a daily basis to maintain organization.

Insurance Agent | *Aflac - Durant, OK* Jan 2019 – Feb 2019

- Established rapport with customers through education about different types of coverage, making recommendations in order to help the customers based on their specific needs.
- Increased sales by networking with potential customers and evaluating policy data to proactively make recommendations for additional coverage.

Freelance Developer | *Self Employed - Remote*

- Created custom blog websites for clients using HTML5 and CSS3. Mar 2017 - Jan 2018
- Communicated with clients to adjust and customize the website to their liking to ensure customer satisfaction.

EDUCATION

App Academy | *Full Stack Web Development* Aug 2021 - Mar 2022

Relevant Coursework includes: Object Oriented Programming (OOP), Test Driven Development (TDD), Coding Best Practices, Systems Design & Architecture, Data Structures, Algorithms, Agile/SCRUM Methodologies

Eastern Oklahoma State College

Aug 2017 - Jan 2019

Studied Agricultural Sciences
